COMMUNITY MEETING

More than 150 people in the Poplar Grove community attended a community meeting at the School house, Wednesday night, May 31. The County Agent discussed the Value of Community Meetings and the Cooperation of Farmers. The latter part of the meeting was very interesting because of more than a score of questions concerning fertilizer, live stock, crops, bees, etc. were asked and discussed. More than 100 bulletins were distributed to the people who desired them on the subjects they were most interested in. Before the meeting closed arrangements were made to have another community meeting on June 30. At this time it is hoped that the County Agent will give a lantern slide lecture on farm crops and club work. The Junior Club work was mentioned and a movement was started for the organization of a club in charge of Mrs. Cook.

We hope that a permanent community organization will be perfected at Poplar Grove, it is a real good farming section and the people are very anxious to grow and develop in the way of community life.

One of the biggest needs of Ottawa, Quail and Poplar Grove communities is a limestone pulverizer. Each of these communities are in reach of limestone but not in available form. A pulverizer would make it possible for these soils to produce almost any crop with a liberal application of phosphorus.

The County Agent visited a number of farmers in each of the above communities and found farm work well up to date and crops growing under the stirring interest of many progressive farmers. Carl Brown a club member was visited and found that he produced 53 bushels of corn per acre last year in the Quail Community, at a cost of 19 cents per bushel. He broadcast his fertilizer which attracted the attention of many farmers after the corn was harvested, and they are doing likewise. Carl continues this year as a club member and is growing corn and soy beans.

The club work in Rockcastle county is bringing about quite a change along the line of agriculture, live stock and poultry. Poultry being the biggest money making proposition in the county. We hope that Rockcastle will reach \$20,000 income this year from poultry and poultry products.

When the Six Royal Holland Bell Rings appear at our Chautauqua we will hear many instruments commonly played in Holland, but strange to this country. These include the cymbal harp, cathedral chimes, Swiss hand bells, school bells, farm bells, ocarinas, and rattle bones, with piano accompaniment. Two of the boys are unusual whistlers. They have been highly praised by Queen Wilhelmina of Holland. They have been playing in vaudeville and for school and church entertainments.

IS YOUR HEALTH GRADUALLY SLIPPING?

Interesting Experience of a Texas Lady Who Declares That if More Women Knew About Cardui They Would Be Spared Much Sickness and Worry.

Navasota, Texas.—Mrs. W. M. Peder, of this place, relates the following interesting account of how she recovered her strength, having realized that she was actually losing her health:

"Health is the greatest thing in the world, and when you feel that gradually slipping away from you, you certainly sit up and take notice. That is what I did some time ago when I found myself in a very nervous, run-down condition of health. I was so tired and felt so listless I could hardly go to all."

"I was just no account for work. I would get a bucket of water and would feel so weak I would have to get it down before I felt like I could lift it to the shelf. In this condition, of course, to do even my housework was a task almost impossible to accomplish."

"I was so nervous and easily upset, the force and effect of a judgement, bearing legal interest from date of sale, with a lien reserved on said land until all the purchase money is paid."
